

NEW FEATURES

1 CHILDREN'S AREA

The perfect place for kids and families to meet for story time, get books, join programming, and so much more.

2 MAKERSPACE / TEEN SPACE

The makerspace is a 'space' filled with tools, resources, and work surfaces where people gather to design and 'make' something new. The teen space is a comfortable space for teens to relax after school and work together on projects.

3 LIBRARY AND FEATURES AREA

A built out space to highlight authors, themes, new books, the region, and more, along with the general book stacks.

4 GENEALOGY AND ARCHIVE ROOM

Climate controlled room with historic town records including Patten Academy yearbooks, Patten town reports and scanners.

5 LIBRARY OF THINGS

Instead of borrowing books, people can borrow items including tools, kitchen appliances, outdoor equipment, electronics, and more.

6 COWORKING SPACE

Both public and private spaces to work alone or together, including work spaces with playpens.

7 PRIVATE MEETING ROOMS

Multiple sound proof rooms, large enough for one or two people to quietly work, interview for a job, have a telehealth appointment, meet with someone to get help with benefits, receiving tutoring and more.

8 COMMERCIAL TEACHING KITCHEN

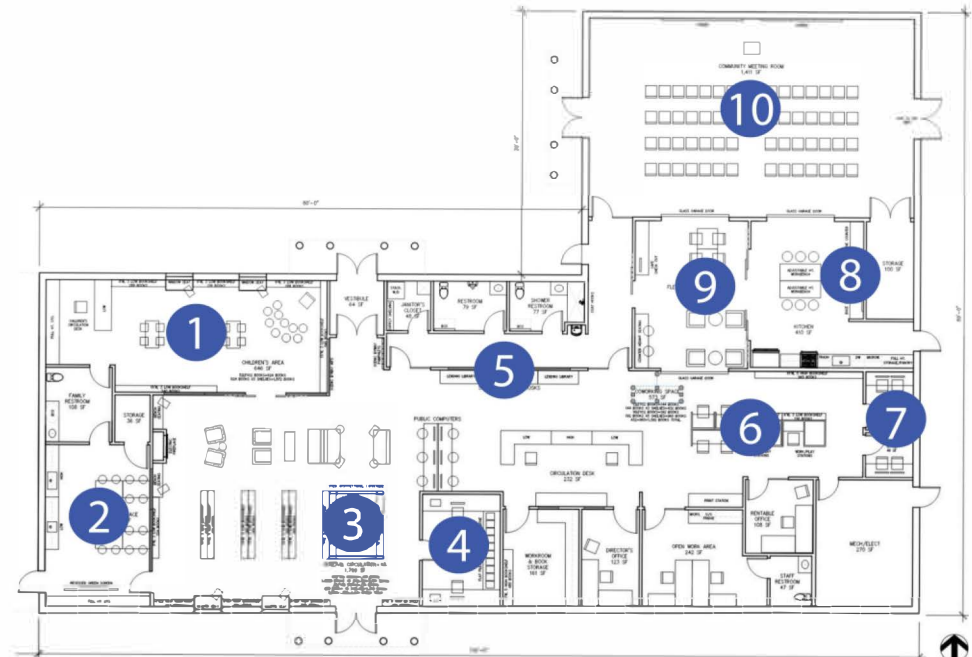

From teaching, to catering, to being available for startup food companies, this kitchen will have it all.

9 FLEXIBLE SPACE & COMMUNITY CAFÉ

A smaller room that can be used for anything from knitting classes, to smaller meeting spaces, including a small cafe area, to bring folks from the community together.

10 COMMUNITY MEETING ROOM

For everything from town meetings to classes to functions, this multi-use space will be the largest meeting space in the region. Outfitted with movable tables and chairs, microphones, screens and projectors, and easily accessible after hours.

“To see this library and community center come to life has been truly inspiring! Libraries open up doors and contribute to a better quality of life for those who have access to them. We couldn't be more excited to see this happening in our rural town.”
